

Financial Notice AMUNDI 3 M

Unitholders of the mutual fund AMUNDI 3 M (DP unit: FR0011307065; E unit: FR0011408798; I unit: FR0007038138; I2 unit: FR0013016607; M unit: FR0013221181; P units: FR0011408764; R unit: FR0013289386; U unit: FR0013289402) managed by Amundi Asset Management, are hereby notified of changes which will come into effect on 3 April 2018. As of this date, the method used to calculate outperformance fees will be adjusted in order to conform to European regulation 2017/1131 on money market funds, published on 30 June 2017 in the Official Journal of the European Union.

Currently, the fund is liable to an outperformance fee deducted by the management company in the event that over a twelve-month period ("the observation period"), the fund's performance exceeds the portfolio's benchmark rate, namely: EONIA. If the fund's assets are greater than the benchmark rate, a maximum provision of 30% of the performance above the benchmark rate is constituted by the management company;

With effect from 3 April 2018, the calculation method for the outperformance fee will be adjusted as follows:

Calculation of the outperformance fee is based on a comparison between:

- the net assets of the unit (before deduction of the outperformance fee) and
- the "benchmark assets" which are the net assets of the unit (before deduction of the outperformance fee) on the first day of the observation period, adjusted for subscription/redemption amounts on each valuation, to which the performance of the benchmark index (capitalised EONIA) is applied.

This comparison is carried out over an observation period of one year, whereby the anniversary date corresponds to the date of establishment of the last net asset value in the month of March.

By way of exception, the first observation period for R and U units, which should end on 31 March 2019, will be come to an end on 30 March 2018 and will not be subject to deduction of a fee. A new observation period, in accordance with the new method for calculating the outperformance fee, will start on 3 April 2018.

If, over the course of the observation period, the net assets for the unit (before deduction of the outperformance fee) are greater than the benchmark assets defined above, a maximum provision of 30% of the performance over the benchmark assets is constituted by the management company. In case of redemption, the proportion of the accrued provision corresponding to the number of units redeemed is definitively payable to the management company.

If, over the observation period, the unit's net assets (before deduction of the outperformance fee) are less than the benchmark assets, the outperformance fee will be nil and will form the subject of a provision reversal on calculation of the net asset value. The reversals of provisions may not exceed the sum of the prior allocations.

This outperformance fee will only be permanently collected if, on the day of the last net asset value for the observation period, the unit's net assets (before deduction of the outperformance fee) are greater than those of the "benchmark assets".

Other features of AMUNDI 3 M remain unchanged.

This change requires no specific action on your part, and has no impact on your UCITS either in terms of management objective or risk/return profile
