Focusing on
the needs of
institutional
and corporate
investors

Amundi has designed a liquidity offering for institutional and corporate investors, providing off-the shelf funds and tailored mandates. As a long-standing leader in the European treasury management market, Amundi has extended its savoir-faire to investors across Europe and around the world.

A solid partner in liquidity solutions

With nearly €224 Bn⁽¹⁾ of assets under management in Liquidity Solutions, Amundi is a major player in treasury management in Europe and across the globe.

Liquidity management has become progressively more challenging for institutional and corporate clients. Thus, we provide well-adapted and clear solutions to investors seeking products combining liquidity and performance⁽²⁾ facing market uncertainties, in an increasingly restrictive environment.

INVESTMENT PHILOSOPHY

Our philosophy is based on a conservative approach. Our key priorities are aligned with what our clients most require from a liquidity solutions fund: security, liquidity and performance consistency⁽³⁾.

Being one of the world leaders in asset management sets very high standards. These standards are reflected in our unwavering search of investment security.

RISK MANAGEMENT AT THE FOREFRONT

Based on a longstanding expertise of more than 30 years, we have built a strong culture of liquidity and risk management.

Risks management is based on rigorous procedures, strict guidelines and sophisticated tools.

The investment and risk teams are highly experienced. Providing products that clients can trust has placed us in a position of strength in weathering the financial crises of the last years.

A RESPONSIBLE PARTNER

Since it was founded in 2010, Amundi has made responsible investment the core of its strategy, making environmental and social responsibility one of the company's four founding pillars.

Managing over €944 Bn⁽¹⁾ in responsible assets, Amundi stands as a leader in responsible investment. Moreover, since 2018, the company strengthened its engagement by increasing the number of initiatives.

This commitment can be observed in our investment processes as well as in the solutions that we recommend to our clients, allowing them to define and implement their own responsible strategy.

In case of very low level of the interest rates of the money market, the return of the fund would not be enough to cover the management fees.

The fund NAV would then fall in a structural way.

A dedicated platform offering Liquidity and Short Term Investment Solutions

IDENTIFY LIQUIDITY NEEDS TO DESIGN OPTIMAL SOLUTIONS

Segmenting the cash time horizon enables investors to manage their risk and optimise their returns by choosing the most appropriate investment solution for each cash segment.

Past performance does not guarantee and is not indicative of future results.

Three fields of expertise answering specific investor needs

GLOBAL LIQUIDITY SOLUTIONS FOR CASH MANAGEMENT

Our range of solutions is denominated in Euro and USD.

SHORT TERM MONEY MARKET

DAILY LIQUIDITY AND ENHANCED SECURITY

An attractive solution for investors looking for an alternative to traditional overnight cash deposits.

Investing in money market funds gives easy access to an investment with daily liquidity and same-day settlement, while diversifying risk.

Money market funds invest in high quality instruments and provide great diversification. These are managed in strict compliance with predefined rules aimed at preserving capital, liquidity, transparency and regularity of performance¹.

ULTRA SHORT TERM BONDS

LIQUIDITY AND HIGHER RETURN THAN MONEY MARKET FUNDS

To optimize cash allocation on an investment horizon superior to 6 months, and given the low short rates context, investors can enlarge their investment universe with ultra short term bond funds.

The funds invest mainly in high quality and liquid bonds and offer active and independent management within a conservative framework. Duration and credit allocation are independently managed. Their respective contribution to global risk depends upon market conditions.

1. Amundi AM's cash management funds and sub-funds do not offer any guarantee of capital or performance.
2. As of March 31st, 2023.

STANDARD MONEY MARKET

DAILY LIQUIDITY WITHIN THE FRAMEWORK OF STRICT CONTROL OF CREDIT AND INTEREST RATE RISKS

Operational treasury with an investment horizon between 1 and 6 months, outperforming short term money market funds within a slightly longer average life and benefiting from premiums offered by credit market.

These funds benefit from a strict credit risk framework and aim to ensure a low volatility performance.

Standard money market funds invest in high quality (money market) instruments and offer the client an additional return through a D+0 settlement solution.

ESG IN OUR PORTFOLIO

A rigorous ESG analysis of companies in which Amundi invests, and a committed voting policy

- +18,250 analysed issuers²
- ESG rating using strict criteria. Investment in best-rated companies on a scale of A to G
- All our funds comply with SFDR's article 8 or 9 and are labelled by independent organizations

Our Investment Solutions

Amundi has designed a wide range of short term solutions to meet investors' needs through open ended funds or bespoke/tailor-made mandates.

BESPOKE MANDATES

Customised solutions take into account investors' specific investments objectives and guidelines.

■ Advisory

Leveraging on our experience, **we can help investors to structure the best solution** and define the criteria fitting their needs

■ Partnership

We assist the client with the **full set-up of mandate implementation** (Legal, Risk, IMA, Client Servicing)

■ Dynamic Approach

We **meet the client on regular basis** to review and comment management decisions

Mandates are the most flexible solutions to meet specific clients guidelines and needs.

The list of funds/sub-funds or share classes is not exhaustive. Please refer to your local sales representative for further information.

For further details about the investment policy or characteristics of Amundi AM's liquidity solutions funds/sub-funds, please refer to the prospectus and/or the Key Investor Information Document (KIID) of each fund/sub-fund.

Information given for indicative purposes only, may be changed without prior notice.

The funds/sub-funds do not offer a capital or performance guarantee. In case of very low level of the interest rates of the money market, the return of the fund would not be enough to cover the management fees. The fund NAV would then fall in a structural way. Not all funds, sub-funds and share classes or, where appropriate, share categories are registered for sale in all countries. Investors may contact Amundi or Amundi Luxembourg S.A. for further information.

Extensive resources and talented teams

Effective support of the investment teams requires the combination of many complementary internal resources and skills⁽¹⁾.

INDEPENDENT RESEARCH

Our research is conducted internally⁽²⁾, which reflects our independence. We do not rely solely on classic tools (rating agencies, sell-side analysis, etc..) to develop our fundamental views, even though they can be useful for comparison.

In addition, our fund managers benefit from a range of quantitative stock valuation and real-time monitoring tools to ensure control of the portfolio.

LIMITING RISK ALONG THE ENTIRE VALUE CREATION CHAIN

Amundi has set up a globally integrated, independent risk function made up of several teams coordinated around one mission: risk control.

All our investment processes are regulated by a rigorous pre- and post-trade control system, covering the full range of our expertise.

MULTI DIMENSIONAL ESG INTEGRATION

With the aim of meeting investors' multiple needs regarding Responsible Investing, Amundi has decided to commit to:

- systematically integrating the E, S and G criteria in the active investment process and portfolio construction
- strengthening dialogue with companies on ESG topics through a proactive engagement policy
- placing environmental and social dimensions at the top of our priorities

- 23** Portfolio Managers
- 14** Strategists/Economists
- 44** Credit Research Analysts
- 30** Fixed Income Traders
- 10** Risk Managers
- 3** Dedicated Investment Specialists
- 30** Experts involved in ESG analysis, ESG scoring/rating methodology, Engagement & Voting
- 30** Years of proven track record

STRUCTURED AND DISCIPLINED INVESTMENT PROCESSES

In order to maximize the performance of funds according to our security constraints, the management team seeks the right balance between different aspects, including:

- issuers selection
- credit and rate exposure
- liquidity
- diversification
- low volatility

Management decisions are made within a structured and proactive framework, based on the interactions of all members of our multidisciplinary team.
