AMUNDI STAR 2

Unitholders of the **AMUNDI STAR 2** mutual fund (E unit: FR0013085024; I unit: FR0010157511; I2 unit: FR0007061379; IRL unit: FR0013072055; I-USD unit: FR0013186103; P unit: FR0013365822; I3 unit: FR0013357829) managed by Amundi Asset Management, are hereby notified of the following amendment with effect from 1st October 2021:

Since 2 October 2019, a new benchmark index has been implemented, the capitalised €STR index, which will permanently replace the EONIA from 2022. In order to prepare for this change, the AMUNDI STAR 2 mutual fund will use the new capitalised €STR index from 01/10/2021, without waiting for the EONIA to be fully discontinued, for units in euro.

Therefore the management objective of AMUNDI STAR 2 will, over an investment horizon of one year, consist of achieving:

- For the E unit: an annual performance 0.885% higher than that of the capitalised €STR index, after taking into account the maximum administration and management fees,
- For the I unit: an annual performance 0.985% higher than that of the capitalised €STR index, after taking into account the maximum administration and management fees,
- For the I2 unit: an annual performance 1.085% higher than that of the capitalised €STR index, after taking into account the maximum administration and management fees,
- For the IRL unit: an annual performance 1.165% higher than that of the capitalised €STR index, after taking into account the maximum administration and management fees,
- For the P unit: an annual performance 0.735% higher than that of the capitalised €STR index, after taking into account the maximum administration and management fees,
- For the I3 unit: an annual performance 1.085% higher than that of the capitalised €STR index, after taking into account the maximum administration and management fees.

Similarly, the capitalised €STR index will replace the capitalised EONIA index in the benchmark asset used to calculate outperformance fees.
